

Waking God Book III: The Second Coming of Humanity

The Second Coming of Humanity is Book III of the WAKING GOD TRILOGY; Book I is titled The Journey Begins and Book II, The Sacred Rota. The series has been called epic in scope, and New York Times bestselling author Piers Anthony says, It will make you think. Focusing on worn out religious dogma as one of the leading causes of human strife, the Trilogy turns the mythical world of good vs. evil on its head. Mantrella, a.k.a. Lucifer, is the champion of humanity, while the Archangel Michael fights to suppress human evolution by preventing the physical birth of the biblical Adam. Mantrella's basic view is summed up when he says, It is not about saving humanity, it never has been. Human destiny is placed squarely on the shoulders of where it belongs: choice; our thoughts create our reality. The Second Coming picks up after the end of the world in 2012. It shows how humanity has brought itself to the precipice where it must decide whether it survives or becomes a part of the current 6th great extinction. Further evidence and guidance of the ancient Tarot Code is revealed as the characters find themselves on their final journey to Jerusalem. Eli knows that the Battle of Armageddon has already begun, but not the one religion portrays as the End Times. Yet the trip must be made in order for the pieces of the Apocalypse to be revealed. Can Michael stop the physical birth of Adam? Do the forces of good and evil battle it out for humanity's soul? Is Lucifer really the great deceiver or is he humanity's guardian? Who can truly save humanity, if indeed it needs saving? In The Second Coming of Humanity all that is hidden is revealed between the lines and beyond the words. Will the dreamer awaken? You must decide! In these times of economic, political, social and religious upheaval, the TRILOGY is required reading, now more than ever!
