

## The Beginning of Liam Lane

Liam was not dealt the best cards in life. He was given a hand meant to fail and it is very clear to see with the incurable heart disease he has among other disappointments such as being unable to be part of the family business like his older brother as his father continues to believe otherwise. Unable to live up to expectations and experience the little things in life regular people take for granted has left Liam sour to the sweet moments. A visit home from the hospital may have caused the game to play in his favor as the bad luck hand may be of some sort of use after all when a crazed vampire wrecks havoc on the family. The monster craves revenge for what Liams father has done and is giving grim pickings on how the vampire will get this. The young boy is left with a choice, does Liam end the life he has known to ensure the safety of his family if it means he must sever ties to them or does he sit out the one chance he can make a difference to keep a connection to his family even if it means no one will survive the night anyway?
