

Reading, Learning, Teaching Margaret Atwood (Confronting the Text, Confronting the World)

Literature that confronts our students assumptions about the world and about text is the lifeblood of English classes in American high schools and colleges. Margaret Atwood offers works in a wide variety of genres that fulfill that need. This volume introduces readers, students, and teachers to the life and works of Atwood while also suggesting a variety of ways in which her works can become valuable additions to classroom experiences with literature and writing. Furthermore, this volume confronts how and why we teach English through Atwoods writing.
