

Seven Slightly Sadistic Stories

This book focuses on real-world threats like serial killers, psychotic madmen, online predators and more. With a mixture of dark humor and creepy storytelling, this collection of bloody and disturbing tales is both entertaining and downright chilling. Each story, with its creepy tone and terrifying set of events, exposes a real and terrifying fact; that no one is ever safe. Want to know more? Here's a glimpse of the stories inside. How long can you remain quiet? That's a question you will ask yourself when reading *Hide and Seek*. A man converses with his inner demons, literally, in *Silence is Golden*. It's up to you to decide if those demons exist or if he has gone completely insane. Minutes stretch into hours and your mind becomes your enemy in *Captive*. Social networking brings us closer together, but just how vulnerable are we to a predator? *Stalking* answers that question quite succinctly, giving you cause to reconsider opening a Facebook account. Do you smoke? Perhaps you'll think about quitting after reading *Just Say No*. Have you ever taken a peek into someone's diary? You'll wish you hadn't after reading *Journaling*. We take a trip back to our first story with *Zen*, giving you another perspective to the events that unfolded at the beginning of the collection.
