

The Universe Is My Sugar Daddy

The Universe is My Sugar Daddy has all of the elements of despair, love, transition, and inspiration. When Samantha quits her job the day after yet another boyfriend breaks up with her, the havoc of these two events launches the beginning of her new life. Samantha dives into therapy with Ragnar Axel, the traditional therapist who sends her on a wild goose chase through her old journals to rediscover herself. At the same time, Samantha decides on becoming a full-time novelist and sets out to craft her first novel, Winters Truth. She hesitantly accepts the unexpected guidance from an unlikely man she meets at the coffee shop. Along her journey, Samantha picks up a new journal and titles it her Positive Journal. Along with disciplining herself to only write positive thoughts in her new journal, she returns daily to the coffee shop to work on her novel. Samantha's life transforms from one of despair and loss to hope and gain. Her daily visits to the coffee shop lead to reinventing her life as a writer and finding true love over lattes.
